Edward S. O'Meara, Jr.  
c/o Senator William Cohen  
Post Office Box 1938  
Portland, Maine 04104

JUN 11 1986

Dear Ted:

I've enclosed some information about our mapping system for Senator Cohen's use. I hope he finds it of value.

We are going to be in Washington D. C. again for demonstrations during the week of July 7, 1986. If you want to set up some appointments for some of Senator Cohen's Staff in Washington or for some of the people in the Intelligence Community to see the mapper in action, we would be happy to demonstrate it to them. We expect to demonstrate the system to personnel at the Defense Mapping Agency and at the BDM Corporation during this week, but we could make special arrangements to fit the Senator's schedule.

We've made some changes to the system since the Senator saw it. We've increased the speed and made it simpler to operate. In "computerese" it's "more user friendly" now. We've also added more raw data to the data base so we now have most of the world mapped out. The people at the Defense Mapping Agency told David DeLorme that we have the fastest, most versatile digital mapping system in the world and that we're probably 2 years ahead of the competition. We continue to improve the system every day, so we know that anyone you schedule to see it will be very impressed.

We hope that you can arrange some appointments for us during that week. We are looking forward to demonstrating the system to whoever you feel will benefit from seeing it.

Yours truly,

*John E. Lavin*
